

CAREERS ADVICE AND GUIDANCE

SERVICES DEVELOPED
BY GREATER MERSEYSIDE
CONNEXIONS PARTNERSHIP

Who we are

Greater Merseyside Connexions Partnership is a registered charity that empowers people to make effective decisions about employment, study and progression towards a successful working life.

As one of the leading providers of independent careers advice and guidance, we have an outstanding reputation for delivering high quality products and services to local Schools, through consultancy, training and direct facilitation. We know the area and our staff are well informed about the latest opportunities and future trends.

Career Connect is our portfolio of cost effective products and services that have been developed to help your learners make better, more informed and effective decisions about learning, work and life.

With over 10 years proven track record in delivering Information, Advice and Guidance (IAG), as one of the highest performing Connexions Partnerships in England, we can make an exceptional difference to the long-term success of young people and their families.

With access to the very latest information and resources, your learners will be ready to embark on an exciting journey into a successful and enjoyable working life.

Innovation in Career & Learning Solutions

Key features of the Career Connect framework:

- We employ qualified and highly experienced Professional Advisers who provide informed, impartial, up to date and relevant guidance
- We offer accredited and non accredited Continuous Professional Development in Careers Education, Information, Advice and Guidance (CEIAG)
- We develop technological IAG learning solutions alongside face to face career planning
- We provide coaching and mentoring sessions to raise aspirations and motivation
- We track all young people to ensure that they are well served, providing help where they do not make successful transitions, or where they have a change of direction
- We provide a 52 week careers service to young people and their parents via schools and through wider local community access facilities

“ I have had extremely useful guidance from my Adviser. It helped me to consider a foundation degree that I wasn't previously aware of. The advice and guidance helped me to decide that I wanted to study a business and management foundation degree and I now have a conditional offer for a course. ”

Nathan, St Helens

“ We asked for INSET on Pathways and IAG. The session was excellent, the resources were very clear we had a really positive response from staff ”

Assistant Head, Parklands School, Liverpool

Excellent careers advice is too important to leave to chance because it is essential to personal and economic well being. Making the right decisions about learning or work really matters...

Decisions - whether they are about GCSEs, A Levels, apprenticeships, university courses, or joining the professions - must be made on the basis of expert information and advice. Getting it wrong now can be costly - in thwarted personal ambitions and unmet service needs.

"Towards a strong careers profession", DfE 2010
